

208 PRO TECH
208-960-0027

WHY 208 PRO TECH

- **Local and owner-led**
  You work with the local team, not a call center.
- **30+ years of owner experience**
  From the repair bench to enterprise IT. Experienced IT serving Treasure Valley businesses and residents since 1995.
- **Certified PMP**
  Projects planned and delivered on time and on budget.
- **Windows and Apple**
  Home offices, small businesses and everything between.
- **Honest and confidential**
  Your data stays private, and we recommend what you need.

MANAGED IT SERVICES

One local team to support, secure and plan your technology, so you can focus on running your business.

We work alongside you to keep your computers, servers and networks running, protected and ready for growth.

- **Remote and On-Site Support**
  Fast help for your team, from anywhere or at your desk.
- **Security and Malware Protection**
  Endpoint protection through our Trend Micro partnership.
- **Backup and Disaster Recovery**
  Protected backups through Acronis and MSP360, tested to restore.
- **Network and Wi-Fi Management**
  Design, monitoring and troubleshooting, wired and wireless.
- **Server and Email Administration**
  Setup, updates and support for the systems you depend on.
- **Strategic IT Planning**
  Roadmaps, project management and quality reviews by a PMP.

HOW A PARTNERSHIP WORKS

1 Talk
We learn your people, tools and pain points.

2 Review
We check systems, security and backups.

3 Plan
You get priorities, timing and budget.

4 Manage
We keep it updated, protected and supported.

Also available: computer, server and network sales, installation and repair for Windows and Apple, plus software licensing, data recovery and electronics recycling.

"As the owner of a growing small business, 208 Pro Tech helped me navigate the maze of business technical systems. They offered suggestions, helped me prioritize, and explained everything in such a way I could understand."

– Andrew Nunn, Owner, nwgroutworks.com
